

Subscribe to email services FAQ

The purpose of this FAQ is to provide information on subscribing to our email services.

****Important****: If you are new to the domain keyspoa.net email has a good chance of ending up in the “junk mail folder”. Please check your “junk mail folder for email from the keyspoa.net domain until you are certain that it ends up in your “inbox folder”. To help prevent this please add the domain keyspoa.net to your safe domain folder. You will be receiving email from these addresses webmaster@keyspoa.net , info@keyspoa.net and noreply@keyspoa.net ; this is an auto reply address which is sometimes used for an auto response acknowledgement. In the future other email addresses from this domain if the BOD decides to use the POA email server instead of personal email. You may want to add those to your safe email list if you have one.

This service does not run on a personal computer but on a subscription server that is virus protected, and spam protection. So far I have not been invaded by any spam bots. The web site is also backed up by the ISP service and me.

Email messages will be sent in PDF format. You can get a free reader from adobe by browsing to Adobe Reader at <http://get.adobe.com/reader/> .

When you select “by clicking” on the “to subscribe link” the following automated events will occur:

- When you click on that link you will be asked to fill out a short form that asks for your name, email address, and keys address.
 - You will also have to select your choice of email services by selecting 1 or both of the check boxes.
1. Channels Newsletter which is an online color version of the mailed version POA Channels Newsletter emailed as a link.
 2. Email information services. This is the mass mailing information system that is integrated into the POA web site. This allows the bulk emailing of information to subscribed members.
 3. Both: Most members elect to receive both.

After you complete the subscription form you and click subscribe you will in a short time receive a confirmation email. This eliminates incorrect email addresses and cuts down the amount of email bounces that would decrease system performance. Confirm your subscription and you are subscribed.
